Forecast for Sunday 23 May 2021

Weather: A lot of dry, bright weather on Sunday but there will be a few showers. More persistent rain will reach Perthshire hills and the Ochils late in afternoon, extending northwards during evening.

Chance of cloud free mountain/hill tops above 800m: 90% decreasing to 30% in south of area during evening.

Visibility: Air will continue to have great clarity resulting in excellent visibility. Also patchy cloud cover about 700M. Visibility will reduce to only a few kilometres from the south during evening as persistent rain extends northwards. Also clouds coming well down the hills.

Met Office Aberdeen Meteorologist's View
Feeling increasingly cold over higher ridges and summits with low temperatures and strengthening winds.

Forecast for Monday 24 May 2021
Weather: It will be a mostly cloudy day with outbreaks of rain and extensive hill fog. Rain will be most persistent in the morning with some drier interludes developing in the afternoon.

Maximum wind: Winds becoming lighter on the tops, generally northeasterly with average speeds of 15 to 20mph, gusts 30mph.

Chance of cloud free mountain/hill tops above 800m: 40%, best towards Southeast Highlands.

Visibility: Rather misty conditions with occasionally poor visibility in more persistent rain and extensive cloud cover around 600 to 700m. Pockets of good visibility, especially over the Ben Lawers Group and the Ochils at first and developing in other areas by the afternoon with clouds occasionally lifting above some of the tops. .

Temperature: **Glens:** Plus 9 Celsius.
At 800m: Plus 4 Celsius
Freezing level: 1400m
